Original Prompt: write an essay on natural disaster
Passing `generation_config` together with generation-related arguments={`max_length`, `num_return_sequences`} is
deprecated and will be removed in future versions. Please pass either a `generation_config` object OR all generation
parameters explicitly, but not both.
Setting `pad_token_id` to `eos_token_id`:50256 for open-end generation.
Both `max_new_tokens` (=256) and `max_length` (=100) seem to have been set. `max_new_tokens` will take precedence.
Please refer to the documentation for more information. (https://huggingface.co/docs/transformers/main/en/

Replacing 'disaster' -> 'catastrophe'

Enriched Prompt: write an essay on natural catastrophe

Generating response for original prompt...
write an essay on natural disaster.

The authors cite a 2002 U.S. Geological Survey survey on the North Carolina region, which found that about one-third
of the people who lived in the area in the 1990s lived in floodproof homes, and about one-third of the people living
near the sea in the 1990s lived in flood-proof homes.

The authors conclude that "the present study's results contradict much of the current scientific consensus about the
causes of natural disasters."

The study was published in the Journal of Environmental Research.

"The results of this study suggest that the current level of protection is inadequate to prevent natural disasters
and that the protection given to the public should be limited to the most severe cases of the catastrophic event,"
the authors conclude.
```

write an essay on natural catastrophe and how to make a difference in this world and how to create change."

The essay, titled "On the Road to the Next Great Disaster," was written by the author of the book "The Path to Disaster" and is part of the campaign to raise \$10,000 for the American Red Cross.

In an interview with CNN on Monday, Dr. George Carlin, the chief of emergency preparedness at the Centers for Disease Control and Prevention, said that if the government is not prepared for a catastrophe, "it's not going to be prepared for a catastrophe."

"We have to be prepared for that," he said. "We don't have to go through a crisis because we've got a crisis of some kind. We're not going to be prepared to go through a crisis because the president would have to be prepared for that."

Carlin said that, if a disaster occurs, "we're going to be at a point where we know the government is not prepared."

"We do not have to go through a crisis because we've got a crisis of some kind," he said. "We're not going to be prepared for that."

He said that if a crisis occurs, "we're going to
